BRAND STANDARDS MANUAL

The complete identity system for The Match Day Club — mark, colour, type, packaging, product and web. v1 · 2026-06-27.

Realigned to the live brand · matchdayclub.co.uk · marks vector-traced + outlined from source.

Brand position

The Match Day Club is a monthly subscription box for young footballers (12–17) — premium gear, real nutrition and recovery essentials, curated by players.

"Elevate your game. Every month."

- Built by players, for players.
- Transparent value (every item's retail price listed).
- Parent-safe: no stimulants, no lock-in, age-appropriate.
- Gamified: streaks, badges, levels.

Identity system

- **Corporate logo** — shield + wordmark.
- **Product mark** — shield only.
- **One-colour mark** — single-ink manufacturing.

The shield

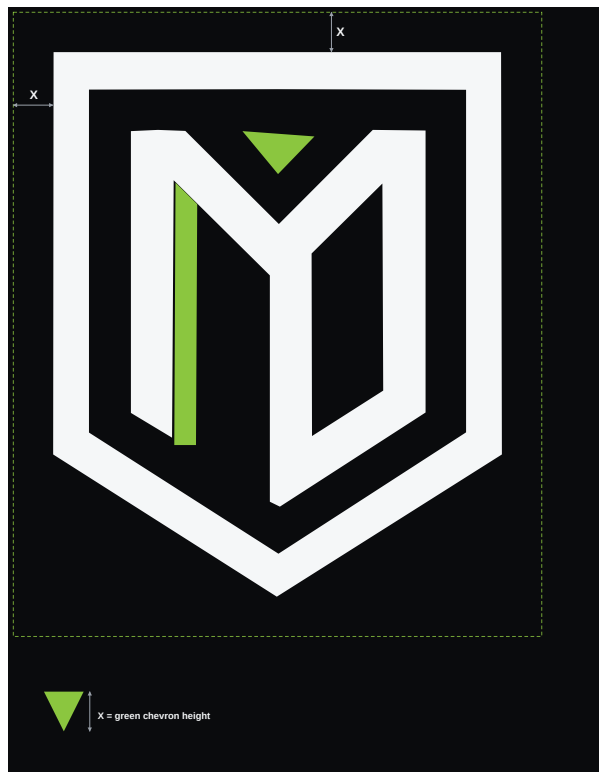

A double-keyline angular shield holding an outlined "MD" monogram, with a green down-chevron in the top notch and an offset two-tone green accent stroke. **Not bilaterally symmetric** — the right side reads as the "D"; never "correct" it to a symmetric M.

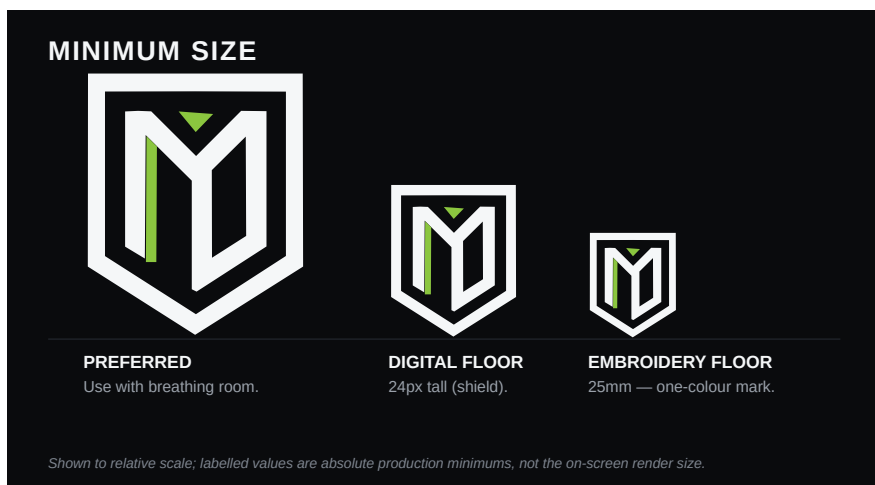

Construction — 1000-unit grid, centre axis

Vector-traced + RDP-regularised from the live artwork. Digital master in 01_Brand/Logo/; straight-edge print master in 08_Exports/Print/.

Clear space & minimum size

Clear space = X (green chevron height) on all sides

Minimum applied sizes

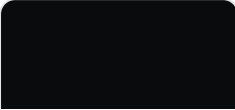

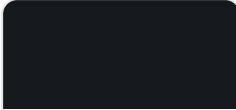

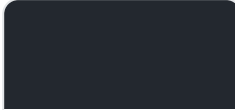

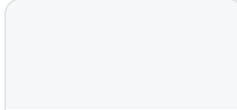

Misuse

Never stretch, rotate, recolour outside the system, shadow, outline, or place at low contrast.

Colour

Dark-led, near-black ground with one bright lime signal. Green is a signal, not a fill (<10% of any view).

Wordmark

THE (green) · MATCH DAY (Anton) · CLUB (Archivo, tracked).

Packaging

Matte black, restrained, tactile. Shield as blind deboss + spot matte-UV; green as a single accent. No gradients — depth comes from finish.

Box lid — matte black, debossed shield, white/foil wordmark

Roll-end tuck mailer + swing tag + seal + tonal tissue. Specs in 03_Packaging/.

Product & gamification

Shield only on product; green as a single accent. Two tiers (Starter / Pro), monthly themes. Gamification — badges, streaks, levels — is part of the product.
